M. Martin, county cierk; H. H. Howard, county attorney: C. H. Deford, sheriff Hon, Lewis Biler, treasurer; Captair Hickey, J. A. Hartbell and Franklin

The list is a good one, and comprises representative men. Democrats can take no comfort in these appointments. Both Democrats and Republicans freely admit that Governor

Steele has a clearly level policy and knows how to develop the most strength of the party and at the same time get a full representation of the people whose interests are at stake in the appointments. No part of the county is neglected. Every man named possesses high social and moral standing in the community.

Oklahoma City continues to be the pride and admiration of this section. Our water power will soon be completed. A flouring mill of 130 barrels per day capacity will be in working order by the time that power is rendy for use. The electric light plant building is completed. The machinery of the plant has arrived and is being placed in position. Electric light poles are set throughout the city, making a complete system.

system. The postoffice block is completely in-closed and is an ornament to the city, be-ing built of brick and dressed stone with plate glass. The first story is for the postoffice. The basement and second story will be used at offices, while the third floor is for a Masonic hall. The Rassett block is two stories and basement with excellent story poons and many suits of offices. The opera house, three stories and basement, has progressed

bree stories and basement, to the second story. It will be 75x140 feet, brick, with white stone trimmings and an elegant structure. The Grand avenue betei is receiving the finishing touches. It will be the largest hotel in the territory and well appointed in every detail. The Bank of Oklahoma City is erecting the finest structure in the territory for a bank

THREE NEGROES EXECUTED. THREE NEGROES EXECUTED.

LINDEN, Tex. June 7.—Three negroes, Tom Mills, Fletcher Holden and Henry Holden, were hanged here today for the marder of James McGregor, a white man, at Atlanta, Tex., on the 7th day of last December. Fletcher had just settled in Cass county and let people know he had money. He drank freely with the three negroes and they enticed him to the edge of the town where Tom Mills broke his head open with a car coupling. The body was carried a mile from the town and left by the roadside where it was found. All of the condemned men confessed their guilt and died repenting.

ALIEN LAW CONTRACTS. SPRINGFIELD, Ill., June 7.—Special Treasury Agent A. J. Lester has returned from Chicago, where he has been collecting evidence of violations of the alien contract labor law among the Chicago carpenters. The evidence has been forwarded to Secre-tary Windom, who, it is expected, will orthe district attorney to commence suits by Thursday next,

ARRESTED FOR EMBEZZLEMENT. ALBANY, N. Y., June 7.—Ex-Recorder Anthony Gould was arrested today charged with embezzling \$15,000 from the City Na-tional bank through collusion with a de-faulting bookkeeper, Whitney.

INJURED BY A TOUGH CHARACTER. BUBLINGTON, Ia., June 7.—Last evening a tough character got into a quarred with the driver of a beer wagon. When an officer attempted to arrest him he retreated to a barber shop, where he fought desperately, felling the officers with a chair. A second officers was called but was kicked in the abdomen and so badly injured that he is confined to his bed. Bystanders at tempted to assist the officers but were beaten off and the desperado escaped. The injured men are in a critical condition.

ALIEN LAW CONTRACTS LUMBER FOR THE FREE LIST. *

While I do not believe that the removal of the tariff from lumber will cheapen it one cent to the consumer, yet I want to see the experiment tried and if it does cheapen it then let it remain on the free list. I am unalterably opposed to building up any man or set of men at the expense of others, yet I am in favor of protection just far enough to keep out the products of the cheaply paid labor of foreign countries, and maintain or increase the wages of our skilled and other laborer in our manufacturing centers, as my judgment has always been, that if we could manufacture and produce all articles we need in this country, it would so increase the number of laborers, who are now producers of agricultural products, that our market would always be at home, and it is good markets that our people want for their beef, pork, corn, wheat and other food supplies. other food supplies.

JUST WHAT IS NEEDED.

I think the following resolution adopted by the Commanche county Alliance at Coldwater, May 24, 1890 to-wit.

"Second. That we demand of congress the protection of American industry, when it does not foster 'trust' or 'trade combines,' and we demand the same protection for farm products that is given to the products of other classes."

Has the right ring and proper sound.

for farm products that is given to the products of other classes."

Has the right ring and proper sound. No government should foster the interest of one portion of her people and burden the other, the manufacture of the east and the nabob of Wall street have no greater right to receive the favors of the government that the citizens who subdues the forest and makes the farm. The former have never made two blades of grass grow where but one grew before, but the latter has, and having done so is a benefactor. It has become fashionable of late to include in condemnation of the tariff. Let us be careful that we do not earry this too far, and destroy the benefit derived by that army of laborers who are mostly members of industrial unions. The argriculturist needs protection for his wheat add the breadstuff made therefrom as against the cheap wheat of the Indias and Russia.

densome (if any) that are used by our farmers in producing food products for our people, if such tariff increases the price of such article, such as farm machinery and others that are needed upon the farm.

A PEW FIGURES. Let us for a moment see the cost of certain articles of necessity to the farmers. We take for comparison the prices of 1888 and 1890, on the first day of June in each year:

SHOWS & SHOWERS

If there is anything that disapprobotion and contempt of the public it is a profession of merit. To make a claim without the realty is simple deception and money obtained on false claims almost comes under the head of a criminal offense. To claim the exclusive sale of a line of goods on which to molize a big price when oiher houses in the line are known to be handing the same goods deserves the disapproval of the de-creeing public. The Arcade does not claim to be the only house in the Dry Goods business in Wichita, but the "Arcade" does profess to have facilities by which she owns her goods for less money than any other house in wichita and can therefore sell the self same goods for less than any other Black Flouncing: another The "Arcade" asks for your house in the city.

The trouble with nearly all people in Kansas is we belong to the debtor class, and are striving to extricate ourselves from the burden. The correction of the evips now existing lies not, in my judg-ment, per force of vicious legislation, but by the lack of proper legislation, which I have great faith will be enacted before the present congress adjourns. Frequently the public are treated to treaties on moral and civil government. To the moral standing of the community in which we do business, and finally to the commercial standing of the business competitor, the "Arcade" takes a different view of advertising and does not deem it the business of the public whether or no a business house has any commercial standing at all, but the "Arcade" insists that what should give one house preference over another is the kind of goods kept and especially the price Anderson Outing
